“The front team is extremely friendly and helpful and the office itself is very high tech. The hygienists are always sensitive to any problems areas you may have and work to ensure your visit is as painless as possible. Dr. Evans (Sr.) has a gentle “bedside manner” and seeks to engage you in a personal conversation about your (non-dental) interests. I highly recommend Dental Care of Baltimore for all your dental needs!” —N. Levy

*"I typically am not a fan of the dentist but I was VERY impressed with the overall professionalism of the staff. The office is state-of-the-art and offers a lot of nice 'amenities' for patients including a massager in the patient chair as well as overhead flat screens and headphones to help take your mind off the procedure. They truly make dental visits a pleasurable experience. I will certainly recommend this office to family and friends." - Tonya L ★★★★★*
